

DON'T LET PAIN control your life

OUR TEAM IS
**COMMITTED TO
YOUR CARE.**

Our Team of pain specialists create an individualized, balanced care plan for each patient designed to help them get back to doing the things they love.

BALANCE THE PAIN. GET BACK TO YOUR LIFE.

At the Van Wert Health Pain Management Center, our team is committed to providing high-quality, balanced pain management care.

We offer a range of pain management services, including treatment of the following pain conditions:

- Back and neck pain, including sciatica and work-related injuries
- Complex Regional Pain Syndrome (CRPS)
- Nerve damage and muscle spasm pain
- Shingles pain
- Arthritis pain
- Headaches

COMMON INTERVENTIONAL PROCEDURES INCLUDE:

- Epidural steroid injections
- Medial branch blocks
- Selective nerve root blocks
- Radiofrequency ablations
- Injections for migraine headaches
